**You are
the most
important
part of our
business.**

Our goal is to make you, our customer, happy. Family owned and operated, we do things a little differently than the other guys. We start by believing that your furniture is truly an investment. You may choose to purchase a complete set, or collect a few pieces at a time.

To produce furniture that is better than anyone else's, we only make bedroom & living room furniture. It's amazing what highly experienced, skilled, and motivated craftsmen can do, when they only make a few products. They are experts because it's all they make.

Your furniture will be "bench made", which means an individual craftsman works on each piece. With his signature on every piece he makes, he takes pride in creating something extraordinary.

When done properly, we believe American

made furniture is the best in the world! Our commitment to quality means that your furniture will always be MADE IN AMERICA!

Your furniture will be crafted from the best Oak money can buy: Northern Red Oak. This

excellent hardwood brings to your furniture distinctive, tight grain patterns with beautiful, consistent color.

The combination of quality materials and superior construction methods come together to create an heirloom piece that will last for generations. But don't take our word for it, visit your local retailer

and discover for yourself. Once you do, we're sure you'll want to become part of the growing Furniture Traditions' family of satisfied customers.

*Sincerely,
The Kirkeby & Ardis families*

See our bedroom furniture at www.FurnitureTraditions.net

The Full-Extension Guide System

With Furniture Traditions full-extension guide system, you get the full use of every inch of your huge drawer space. The combination of steel ball bearing guides (customized just for us) and sturdy nine-ply Baltic Birch drawer sides make your drawers glide like magic!

To see how far these drawers can extend, open one up for yourself!

Solid Construction

Your furniture will be counter-bored and screwed together, with solid 3/8" plywood backs. This creates our fantastic "no flex" construction. Lift the corner of one of our pieces; you'll feel the solid construction yourself.

Quick Ship

Because we stock what we make, your lead times will be excellent.

Heirloom Warranty

As long as you own it, as long as we're in business, we will fix it if there's a manufacturing defect.
